

Section 5 – Restricted Areas

Restricted Areas means “**spaces that are essential to the operation, control, or safety of the vessel**”.

Once these areas have been identified this information along with their location should be marked onto the General Arrangement plan.

This information should also be entered into the attached tables.

Examples of Restricted Areas

- Bridge
- Radio/communications room
- Engine control room
- Cat A machinery spaces
- A/C vent and control room
- Potable water tanks, pump, manifold controls
- Security, surveillance, control room
- Areas containing dangerous goods, hazardous substances, unaccompanied baggage
- Spaces containing cargo pumps and their controls
- Ships stores spaces
- Crew and personnel accommodation
- Safety and emergency equipment storage
- Electrical control/equipment room
- Lighting control room
- Steering gear room
- Cargo storage areas
- External cargo storage areas (containers etc)

Restricted Areas could include but are not limited to the examples above. Restricted areas will vary from ship to ship.

ISPS Code – Practical Pack

Location	Deck	Level 1	Level 2	Level 3	Remarks
Bridge Locked Unlocked Keys Held By Security Control / Check					
Radio/communications room Locked Unlocked Keys Held By Security Control / Check					
Engine control room Locked Unlocked Keys Held By Security Control / Check					
Cat A machinery spaces Locked Unlocked Keys Held By Security Control / Check					

ISPS Code – Practical Pack

Location	Deck	Level 1	Level 2	Level 3	Remarks
A/C vent and control room Locked Unlocked Keys Held By Security Control / Check					
Potable water pump, manifold control room Locked Unlocked Keys Held By Security Control / Check					
Security, surveillance control room Locked Unlocked Keys Held By Security Control / Check					

ISPS Code – Practical Pack

Location	Deck	Level 1	Level 2	Level 3	Remarks
Areas containing: dangerous goods, hazardous substances, unaccompanied baggage Locked Unlocked Keys Held By Security Control / Check					
Areas containing cargo pumps and their controls Locked Unlocked Keys Held By Security Control / Check					
Ship stores spaces Locked Unlocked Keys Held By Security Control / Check					

ISPS Code – Practical Pack

Location	Deck	Level 1	Level 2	Level 3	Remarks
Crew and personnel accommodation Locked Unlocked Keys Held By Security Control / Check					
Safety/Emergency equipment storage Locked Unlocked Keys Held By Security Control / Check					
Electrical control/equipment control room Locked Unlocked Keys Held By Security Control / Check					
Lighting control room Locked Unlocked Keys Held By Security Control / Check					

ISPS Code – Practical Pack

Location	Deck	Level 1	Level 2	Level 3	Remarks
Steering gear room Locked Unlocked Keys Held By Security Control / Check					
Cargo storage areas Locked Unlocked Keys Held By Security Control / Check					
External cargo storage areas (containers etc) Locked Unlocked Keys Held By Security Control / Check
